INLINE INTERLINEAR

Role
User Experience/Web Design

Date
August 2022

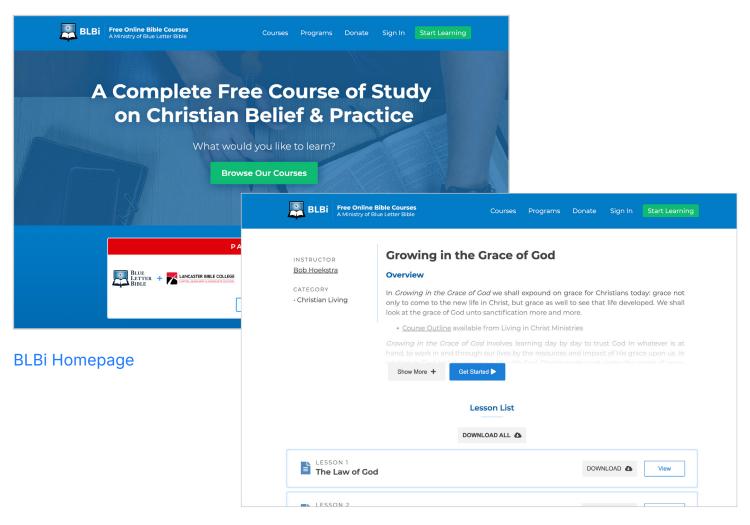

In order to add more value to it's users, Blue Letter Bible wanted to release an inline interlinear that would be a more visual way for people to interact with the original Hebrew and Greek texts. In the process I mocked up design samples, created a color system to highlight all the parts of speech, and worked with a developer bring the tool to life for BLB users.

User Experience/Web Design

**Date**September 2019

BLBi Course Page

I was tasked with re-designing Blue Letter Bible's educational website called BLB Institute. I started with creating a sitemap, building out wireframes, creating hi-fidelity mockups, and working with a developer to bring the designs to life.

2024 PRINT CALENDAR

Role
Art Direction/Graphic Design

Date
September 2023

I had the privilege of working on the Blue Letter Bible 2024 Calendar. This calendar is sent out as a donor gift each year. I was given the task to oversee the entire design process and worked independently using the provided copy. I composed the layout and created the calendar template from the ground up.

Getty Music Ad • September 2019

Here are a few samples of ads I worked on for Blue Letter Bible that were displayed in Getty Music's Sing! Conference programs. I came up with designs that would reflect the brand and also showcase the various tools that BLB offers.

#### INSTRUCTION SHEET

Role
Graphic Designer

**Date** 

Graphic Designer August 2010

**Update** 

I was tasked to improve Kwikset's SmartCode instruction sheets to make the installation process more engaging to customers. I designed each step to contain tools and parts needed and added color to highlight action steps. Product return rates decreased as a result of the updates at Home Depot and Lowes.
